Trick or treat? Let's go with treat! 🍬 Before snacking down on candies and holiday banquets, get tested for invasive food tolerances. Patients are receiving answers in as little as three days! Here's how it works:

- 📧 Send in a hair sample to our lab.
- 🧙 Our friendly witches will brew-up some answers.
- 📄 Receive a custom report of all the foods to avoid this season!

Food allergens can cause indigestion, acid reflux, migraines... even acne. Instead of taking pills, find out which food monsters to kick out of the haunted house.

Get to the bottom of food allergies... and that bag of candy. Send in a sample today! 📩

Everyone should be able to eat candy on Halloween. 🍬 Test for food allergens that make digestion harder & receive results in as little as three days! That's scary fast.

Quick Results + A Full Report = Better Digestion ✅ Snack on that!

Learn more about the testing process & get started on relief.

Some of us know when we have a food allergy, but millions of people go through their day not knowing about food sensitivities that are causing underlying health problems. 😞

Our labs test over 350 food triggers that cause people to have discomfort, like pesky breakouts and those emergency bathroom visits.

We think it is time to get the information necessary to make safer food choices for a healthier life. 😊
